Certifying CLEAN Food By We The People

People want C.L.E.A.N. food. What does Certified C.L.E.A.N./R.A.W. mean? It means **C**onscious, **L**iving, **E**thical, **A**ctive, and **N**utritious with **R**eal, **A**live, and **W**hole ingredients and processing. This Certification is owned by *We The People* and reflects the wisdom of indigenous and traditional cultures who knew what was good food, how to combine it, when to eat it, and how to process it to receive optimal nutrition: organic, non-GMO, minimally processed, nutrient dense with good enzymes.

New Medicines Without Animal Testing

International Center for Integrative Systems

The Open Science Institute™ is doing science and finding new medicines from Nature faster, better, safer, and cheaper through the use of the revolutionary Systems Biology technology platform: CytoSolve® that eliminates the need for animal testing. This Institute is funded by *We The People* and is moving forward to solve every major disease: Cancer, Osteoarthritis, Alzheimer's, Diabetes, Obesity, Aging, ALS, Parkinson's, Asthma, etc. through a revolutionary six-step process that you as a citizen can directly fund and support.
